

QUALITY POLICY STATEMENT

Eden Renewable Innovations Ltd (ERIL) is a supplier of natural fibre insulation and associated products. The Directors and team are committed to supplying products and services that not only meet but exceed the requirements of our customers and stakeholders. The same expectations apply throughout our supply chain.

ERIL operates a Quality Management System (QMS) in accordance with ISO 9001:2015 and are bound to ensure all aspects of our activity are subject to a process of continual improvement in line with the principles set out in ISO 9001:2015.

The defined scope of the Quality Management System is the production and distribution of building insulation products made using natural and recycled fibres as well as ancillary products such as breather, vapour and air-tightness membranes and tapes.

The Directors of the business and the ERIL team take ownership to ensure that this policy is implemented through our QMS. All our team play a role in quality management and their involvement and engagement is key to our continual improvement. The team are kept up to date with the importance and relevance of the QMS, any updates to it and are encouraged through a variety of platforms, to contribute to the development and operation of the QMS.

The policy is available to customers and suppliers on request.
